Experience

UX design intern

Google UX design professional certificate

Jan 2025 - Mar 2025   3 months, online

- Completed 7-course specialization covering UX fundamentals: research, wireframing, prototyping, and testing
- Developed 3 end-to-end case studies from concept to high-fidelity prototypes
- Conducted 10+ user interviews and usability tests, implementing findings into iterative designs
- Created accessible interfaces following WCAG guidelines for diverse user needs

UI design intern

Figma UI UX Essentials course- Udemy

Feb 2025 - May 2025   4 months, online

Mastered industry-standard Figma workflows (components, auto-layouts, interactive prototyping) while refining 3 case studies from low-fidelity wireframes to polished, user-tested interfaces. Strengthened my UI design foundations through iterative feedback on:

- Visual hierarchy (typography, contrast, spacing)
- Design system implementation (reusable components)
- Accessibility-driven decisions (WCAG color ratios)
- Developed and maintained a disciplined design system that streamlined collaboration between cross-functional teams, reducing design inconsistencies by 50%.

Summary

Career Transition from Dentistry

Recent graduate of the Google UX Design Certificate building foundational skills in user research, wireframing, and prototyping. My dental background cultivated strong observational abilities and user empathy, which I now apply to design thinking. Committed to developing my expertise through hands-on projects and continuous learning in a professional UX environment.
